ANNUAL SUMMARY OF UNLOADS OF FRUITS AND VEGETABLES

WASHINGTON, D. C., 1946

Information contained in this report is based on data obtained by the U. S. Department of Agriculture, Production and Marketing Administration, from railroads, express and boat companies, wholesale fruit and vegetable dealers, chain organizations and other sources in Washington, D. C.

Total unloads by rail, boat and truck in Washington of fresh fruits and vegetables during the calendar year 1946 amounted to 15,109 cars. Of this total 60 percent originated by freight, 36 percent by truck and the balance was by express, except for a few by boat.

The total unloads by all carriers for 1946 was 1 percent larger than for 1945 and was a 15 percent increase over the 5-year (1941-45) average.

Carlot unloads totaled 9,129 cars, a decline of 69 cars below 1945 and 446 cars below the peak year 1944. During the late 1930's carlot unloads approximated 5,500-6,000 cars. Commencing with 1941 they increased each year until the peak of 9,575 cars was reached in 1944.

Potatoes led the carlot unloads with 1,608 cars, followed by oranges with 1,184, lettuce 1,000, bananas 636, grapefruit 423, onions 400, cantaloups 370, celery 356, sweetpotatoes 290, carrots 269 and apples 232. Thirty-eight other commodities comprised the balance.

California and Florida originated over half of the carlot unloads. California furnishing 2,589 carlots and Florida 2,096. Other important originating States included Maine with 377 cars, Arizona 471, Texas 453, New York 361, Idaho 289, South Carolina 266, Washington State 246, and Louisiana 207. Twenty-nine other States and several foreign countries accounted for the balance.

Carlot unloads were heaviest in April with 862 cars and were lightest in August with 561 cars.

Unloads by truck totaled 5,696 cars, an increase of 7 percent over the 1945 figures. Truck unloads increased during the late 1930's reaching a peak in 1942 with 6,270 carlot equivalents. During 1943 and 1944 war-time tire and gasoline restrictions caused a marked drop in truck unloads, but after these restrictions were eased in 1945 the trend has been upward.

The most important commodities unloaded by truck, in order of importance, were potatoes with 697 carlot equivalents, followed by cabbage with 536, apples 459, tomatoes 449, beans 369, peaches 340, green corn 298, greens (except spinach) 276, spinach 215 and sweetpotatoes 156. Forty-seven other commodities comprised the balance.

Principal States originating the truck unloads were Virginia with 647 cars, North Carolina 641, New Jersey 639, Maryland 615, Pennsylvania 575, Florida 572, New York 414, South Carolina 168, West Virginia 138 and Georgia 110 carlot equivalents. Approximately 1,000 carlot equivalents were reshipped by truck from New York City and Baltimore to Washington.

Unloads by L.C.L. express totaled 234 carlot equivalents as compared with 257 cars for 1945. Tomatoes, mushrooms, squash, peaches, cantaloups and beans were the principal commodities received in the order of their importance. Principal originating states were Florida, Massachusetts, North Carolina, South Carolina, Pennsylvania and Louisiana.
